

Joash Jezreel Lucas Noble

Senior Software Engineer | Full-Stack Developer | Lead Programmer

Angeles City, Pampanga, Philippines | +63 906 781 9374 | noblejjoash@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Software Engineer and Lead Programmer with nearly 10 years of professional experience in software development, system maintenance, client-specific customization, and third-party integrations. Experienced in full-stack development, developing and maintaining business applications, integrating payment, shipping, and authentication services, and adapting systems to changing business and regulatory requirements. Currently responsible for leading development activities, assigning tasks, reviewing and QAing pull requests, coordinating deployments, and identifying opportunities to improve application functionality and maintainability.

EDUCATION

City College of Angeles

2013-2017

Bachelor of Science in Information Systems (BSIS)

ACHIEVEMENTS & RECOGNITION

- Participated in back-end programming, TORO Competition (2016)
- Dean's Lister, 2nd Semester, S.Y. 2016–2017

EXPERIENCE

SENIOR SOFTWARE ENGINEER / LEAD PROGRAMMER

August 2021 – August 2026

Bycodeworks

- Served as a Lead Programmer, overseeing development activities and helping guide the technical implementation of application features and improvements.
- Maintained and enhanced a Traffic School System, implementing new functionality, resolving issues, and improving existing features.
- Integrated and maintained third-party services including Stripe for payment processing, EasyPost for shipping, and Auth0 for authentication and social login, along with additional integrations such as BlueNotary, CleverTap, Intercom, Plaid, Proof, Reviews.io, SendGrid, and VWO.
- Developed and maintained full-stack functionality across frontend, backend, database, and third-party integrations.
- Led and assigned development tasks to a team of 3 developers based on project requirements, priorities, and technical considerations.
- Reviewed and QA'd pull requests from a team of 3 developers, checking implementation, functionality, code quality, and potential issues before changes were finalized and deployed.
- Investigated existing application functionality and proactively identified opportunities to improve system functionality, maintainability, and overall implementation.
- Collaborated with clients and developers to understand requirements and translate business needs into technical solutions.
- Maintained and enhanced WordPress-based marketing applications, implementing changes and functionality based on client requirements.
- Contributed to the development of a Client Drive system combining task management, client communication, and Stripe-powered payment functionality.

- Troubleshoot and resolved application issues across different areas of the system and coordinated fixes through development, review, QA, and deployment.
- Coordinated deployments on a task-driven release cycle, ranging from same-day releases for minor fixes to up to two weeks for large-scale system changes, ensuring stable and low-risk rollouts.

MID-LEVEL SOFTWARE ENGINEER

May 2017 – August 2021

JDEV Office Solution Inc.

- Maintained and customized Human Resource, Scheduling, and Payroll systems for 6 clients, adapting to individual client requirements, business rules, and organizational settings.
- Implemented updates to Philippine payroll regulations, including changes involving SSS, Pag-IBIG, PhilHealth, and withholding tax.
- Developed and maintained Simplified Payroll and Clinic Management systems for clients.
- Managed and maintained clients' systems deployed on cloud servers, ensuring applications remained accessible and operational.
- Maintained and customized Billing systems with Customer Subsidiary, Statements of Accounts, and Payment modules.
- Worked on business management systems supporting Bill of Materials, Invoicing, Job Orders, and Variation Orders.
- Maintained and deployed Standard Accounting systems covering purchasing, sales, and inventory management.
- Customized and deployed accounting, billing, payroll, and tax solutions based on individual client requirements.
- Worked directly with clients to understand business requirements and translate their needs into system functionality and improvements.
- Provided technical support for client computers, including hardware and software troubleshooting and maintenance.
- Assisted clients in resolving technical issues involving deployed applications and computer systems.

DATABASE EDITOR — INTERN

November 2016 – March 2017

Top Data Global IT Solutions

- Maintained and updated database records to ensure data accuracy and consistency.
- Performed data entry, validation, and organization of database information.
- Identified and corrected data inconsistencies and errors.
- Supported the team in maintaining reliable and organized database records

PROJECTS
